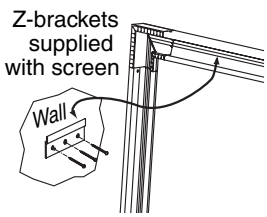
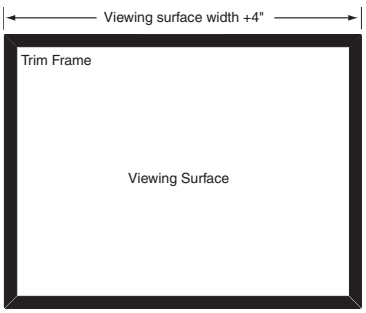
CLARION

PERFECT PICTURE QUALITY FROM A FIXED PROJECTION SCREEN

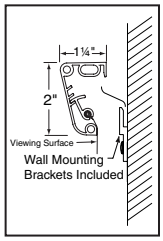
Earlham College, Richmond, Indiana

Clarion frame details: rear view





Frame Detail Side View. Viewing surface is approximately ¼″ from wall.



FEATURES

- Improve your image with a Clarion projection screen. Viewing surface is flat, for perfect picture quality. Viewing surface is stretched tightly behind a beveled black aluminum frame.
- Designed for quick assembly and flatter viewing surface—no snaps!
- Z-Clip wall mounting brackets included to simplify installation.

OPTIONS

- **Viewing Surfaces**—M1300, M2500, HiDef Grey, AT1200 or AT Grey for front projection, or Cineflex rear projection vinyl.
- **Frame Finishes**—Black aluminum is standard. Cover the frame with optional velvety black, Vel-Tex® to eliminate reflections.
